Ian Cornelius

REVIEW AND RESULTS OF OPERATIONS

A summary of revenues and results for the half-year is set out below:

	2009	
	Revenues \$	Results \$
Consolidated entity	2,244,758	1,315,163

The strategy for the current half-year has been to continue to underpin the funding of work at Peak Hill by developing and enhancing the capital generating potential of other Company assets. The Mt Padbury iron ore sale with Midwest Corporation Limited will see a cash payment of \$4M to the Company on definition of a JORC Resource in excess of 10Mt grading over 50% Fe.

The Company currently has in place a Tribute Mining Agreement with Resource Gold Pty Ltd ("RGL") to process suitable material from within the Peak Hill Project using RGL's gravity plant. This has provided the Company with gold production where all costs and environmental liabilities are carried by RGL. The Company receives 25% of all metal produced.

Company funds will be focused on accelerating the exploration at Peak Hill and the surrounding tenure as well as at the Company's exciting new copper/manganese project at Butcher Bird to the northeast.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 4.

This report is made in accordance with a resolution of directors.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1: BASIS OF PREPARATION OF THE HALF-YEAR FINANCIAL REPORT

This general purpose financial report for the interim half-year reporting period ended 31 December 2009 has been prepared in accordance with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*.

This interim financial report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 30 June 2009 and any public announcements made by Montezuma Mining Company Limited during the interim period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except as set out below.

Changes in Accounting Policy

Montezuma Mining Company Limited had to change some of its accounting policies as the result of new or revised accounting standards which become operative for the annual reporting period commencing on 1 July 2009.

The affected policies and standards are:

- Presentation of financial statements revised AASB 101 Presentation of Financial Statements.
- Principles of consolidation revised AASB 127 Consolidated and Separate Financial Statements and changes made by AASB 2008-7 Amendments to Australian Accounting Standards Cost of an Investment in a Subsidiary, Jointly Controlled Entity or Associate.
- Business combinations revised AASB 3 Business Combinations.
- Segments new AASB 8 Operating Segments.

Presentation of financial statements

AASB 101 (revised) prescribes the contents and structure of the financial statements. Changes reflected in this financial report include:

- The replacement of Income Statement with Statement of Comprehensive Income. Items of
 income and expense not recognised in profit or loss are now disclosed as components of 'other
 comprehensive income'. In this regard, such items are no longer reflected as equity movements
 in the Statement of Changes in Equity;
- The adoption of the single statement approach to the presentation of the Statement of Comprehensive Income; and
- Other financial statements are renamed in accordance with the Standard.

Principles of consolidation

AASB 127 (revised) requires the effects of all transactions with non-controlling interests to be recorded in equity if there is no change in control and these transactions will no longer result in goodwill or gains and losses. This is different to the Group's previous accounting policy where transactions with minority interests were treated as transactions with parties external to the Group.

The standard also specifies the accounting when control is lost. Any remaining interest in the entity must now be remeasured to fair value and a gain or loss is recognised in profit or loss. This is consistent with the Group's previous accounting policy if significant influence is not retained.

The Group in future will allocate losses to the non-controlling interest in its subsidiaries even if the accumulated losses should exceed the non-controlling interest in the subsidiary's equity. Under the previous policy, excess losses were allocated to the parent entity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (continued)

NOTE 1: BASIS OF PREPARATION OF THE INTERIM FINANCIAL REPORT (continued)

Lastly, dividends received from investments in subsidiaries, jointly controlled entities or associates after 1 July 2009 are recognised as revenue even if they are paid out of pre-acquisition profits. However, the investment may need to be tested for impairment as a result of the dividend payment. Under the Group's previous policy, these dividends would have been deducted from the cost of the investment.

The changes were implemented prospectively from 1 July 2009. There has been no impact on the current period as there are no non-controlling interests within the Group. There have also been no transactions whereby an interest in an entity is retained after the loss of control of that entity and no dividends paid out of pre-acquisition profits.

Business combinations

AASB 3 (revised) continues to apply the acquisition method to business combinations, but with some significant changes.

All payments to purchase a business are now recorded at fair value at the acquisition date, with contingent payments classified as debt and subsequently remeasured through the income statement. Under the Group's previous policy, contingent payments were only recognised when the payments were probable and could be measured reliably and were accounted for as an adjustment to the cost of acquisition.

Acquisition-related costs are expensed as incurred. Previously, they were recognised as part of the cost of acquisition and therefore included in goodwill.

Non-controlling interests in an acquiree are now recognised either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. This decision is made on an acquisition-by-acquisition basis. Under the previous policy, the non-controlling interest was always recognised at its share of the acquiree's net assets.

If the Group recognises acquired deferred tax assets after the initial acquisition accounting there will no longer be any adjustment to goodwill. As a consequence, the recognition of the deferred tax asset will increase the Group's net profit after tax.

The changes were implemented prospectively from 1 July 2009. There has been no impact on the current period as there were no acquisitions by the Group during the period.

Segment reporting

The Group has applied AASB 8 *Operating Segments* from 1 July 2009. AASB 8 requires a 'management approach' under which segment information is presented on the same basis as that used for internal reporting purposes. There has been no change to the reportable segments required to meet the new standard.

Operating segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker has been identified as the full Board of Directors.

NOTE 2: SEGMENT INFORMATION

The company operates in predominantly one business and geographical segment, being mineral exploration in Australia.

NOTE 4: CONTINGENCIES

There has been no change in contingent liabilities or contingent assets since the last annual reporting date.

NOTE 5: SUBSEQUENT EVENTS

No matter or circumstance has arisen since 31 December 2009, which has significantly affected, or may significantly affect the operations of the Group, the result of those operations, or the state of affairs of the Group in subsequent financial years.

DIRECTORS' DECLARATION

In the directors' opinion:

- 1. the financial statements and notes set out on pages 5 to 11 are in accordance with the *Corporations Act 2001*, including:
 - (a) complying with Accounting Standard AASB 134: Interim Financial Reporting and the *Corporations Regulations 2001*; and
 - (b) giving a true and fair view of the consolidated entity's financial position as at 31 December 2009 and of its performance for the half-year ended on that date; and
- 2. there are reasonable grounds to believe that Montezuma Mining Company Limited will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the directors.

Independent Review Report to the Members of Montezuma Mining Company Ltd

The financial report and directors' responsibility

The interim consolidated financial report comprises the statement of financial position, statement of comprehensive income, statement of changes in equity, cashflow statement, accompanying notes to the financial statements, and the directors' declaration for Montezuma Mining Company Ltd for the half-year ended 31 December 2009.

The Company's directors are responsible for the preparation and fair presentation of the consolidated financial report in accordance with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report.

Review approach

We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of an Interim Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the interim consolidated financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated financial position as at 31 December 2009 and the performance for the half year ended on that date; and complying with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As auditor of Montezuma Mining Company Ltd, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Independence

In conducting our review we have complied with the independence requirements of the Corporations Act 2001.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the interim consolidated financial report of Montezuma Mining Company Ltd is not in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the consolidated financial position as at 31 December 2009 and of the
 performance for the half-year ended on that date; and
- complying with Australian Accounting Standard AASB134 Interim Financial Reporting and the Corporations Regulations 2001.
